Ayesha Saeed

■ ayesha18026@gmail.com | ■ Faisalabad, Pakistan

Objective

Motivated and detail-oriented web development student with hands-on experience in front-end design. Passionate about building responsive and user-friendly interfaces using modern tools and frameworks. Looking for an internship opportunity to apply and grow technical and creative skills.

Education

BS Computer Science — Ongoing
MS Computer Science — In Progress
Ripah International University, Faisalabad
Intermediate (Medical)
Matriculation

Skills

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js, Tailwind CSS
Design Tools: Figma, Canva (basic)
Other: Responsive Web Design, UI/UX Fundamentals

Experience

Front-End Intern (6 months)
• Designed and implemented responsive web pages.
• Collaborated on team projects for UI improvements and layout design.
• Used tools like React.js and Tailwind CSS for modern component-based development.

Projects

• **Masjid App:** Developed a web-based app interface for mosque information and announcements.
• **Restaurant Application:** Designed and coded the frontend for an interactive restaurant ordering system.
• **Company Website Frontend:** Built the complete frontend for the company's official website using HTML, CSS, and Bootstrap.
• **Chat System (In Progress):** Currently developing a real-time chat application interface using React.js.

Interests

Web design, front-end development, creative UI building, exploring new frameworks, and visual design.
